WILD ROSES ON THE WILDERNESS WEST COAST

Photographer: **Svphotograph / Boudoir à la française** @svphotograph.boudoir

Created by award-winning husband and wife photographers from France, Samuel, and Virginie, SV Photograph is a global art studio with an authentic and personal approach, focusing on beauty and love. Originally from France, we relocated to Vancouver Island 3 years ago after living in Tahiti, Moorea for 4 years, and New Zealand for 2 years. We are passionate about creating bespoke experiences that capture the emotions and the beauty of our clients.

We have specialized in boudoir photos and nude-art shoots for over 15 years. We've been learning and practicing in France with the best Artisan Photographers. We both love to create art - unique, epic and dreamy, with a muse. The woman's body and nature are amazing together. We shoot in the desert, tropical forest, on the beach, rocky mountains, we shoot in winter, spring, summer, fall, sunrise, sunset, sunny or cloudy weather.

There's no need for you to have modelling experience: today, we are showing you the result with a customer and it was her first nude-art shoot and she never tried boudoir. We have been focusing on divine feminine sovereignty and empowerment in the personal growth journey of our clients. The outdoor nude-art session is a perfect way to honour feminine and to reconnect with what matters.

BOUDOIR

This shoot is about a woman who wanted to reconnect with her body and her soul. This story is about feeling the power of the wilderness, the power of the elements: the waves, the wind, the waterfall, and the rain.

No control anymore, no overthinking. Just feeling the divine feminine sovereignty and empowerment in the personal growth journey. And realizing how beautiful and harmonious the naked body is with nature.

MODEL TESTIMONIAL:

How does the idea of having a nude-art shoot come to you ?
The idea of having a nude photoshoot has always been an avenue I wanted to explore. My partner and I had discussed it in the past but were unable to find the “right” professional photographers. After conducting months of research we were shocked and delighted to find SV Photograph online and were mesmerized by the sophistication and authenticity SV photographs provided.

Why did you pick the outside shoot more than in a traditional hotel room ?
I have always loved the outdoors, specifically the ocean. I felt placing myself in nature and bearing the elements I would be able to capture my most authentic and beautiful self. I wanted to feel the freedom that nature allows you to feel. Not to say I am opposed to a traditional hotel room setting, however I naturally felt drawn to being in nature.

How was the day of the session? Like you imagined?
I couldn’t have asked for a more beautiful day. The sunshine peeking through the clouds and trees was breathtaking. The session was great and most importantly comfortable. I did not feel rushed which is really important because I felt I was able to relax even more and just be in the moment. SV Photograph are professionals and masters of their craft. You can definitely see how passionate they are and love what they do.

Did you feel comfortable posing for photos?
At first no I am the type of person who avoids photos and didn’t really know what to do with my face and body. SV were great with giving examples and directions surrounding how to pose and
move my body. I started to feel more comfortable with posing as the session went on and by the end felt I got the hang of it.

Do you remember how you feel when you saw your photos?
Excited! But also a little nervous. I am a bit of a perfectionist and often my own worst critic but once I opened up the photos I was blown away. My partner actually couldn’t help but look at the photos before I was able to and he was like “WOW” I absolutely love them. I felt very good
when I finally got to look at them. This was a huge confidence booster and cannot wait to do another one :)

Does this experience changed your vision of yourself ?
Yes, absolutely. I feel like a more strong, confident, and empowered woman. Is there anything you wanted to share with others women who might feel not ready yet? Feeling “not ready” is a completely valid feeling. Do this for yourself and not anyone else. We are all beautiful and should be able to express our beauty however we want. I didn’t feel ready but I told myself to be vulnerable and take a chance to grow as a woman. I am sure glad I did and if you do, I promise you will be left feeling empowered! My mindset shifted and I feel like I can take on the world!

WINTER SILENCE

Photographer: **Svphotograph / Boudoir à la française** @svphotograph.boudoir

We've been shooting this Model (who prefer to stay Anonymous) during an exceptionally cold winter in British Columbia. After walking several hours on the snow, we find the perfect untouched location, surrounded by frozen trees and just silence.
